will suit either of these conditions, and prevent us from feeling the change.—Flannel effects this desirable object. It keeps our persons warm when exposed to cold, and in the case of heat relieves us by becoming an absorbent for moisture, which it throws off insensibly, leaving the skin in a state of comparative comfort.

Linen utterly fails in accomplishing these points. Flannel is thus a equally useful in summer as in winter. Some persons imagine that it should be employed only in the winter and cold spring months, and they consequently throw it off on the approach of summer. This is a dangerous fallacy. Flannel should be worn all the year round, never left off a single day on any account. If thrown off from an idea that the weather is getting warm, the skin becomes immediately exposed to the atmospheric influence; the perspiration, if any cools on the person; the unprotected pores shrink and close; catarrh, or some other disease, under the general name of "a bad cold," ensues; and the victim of imprudence perhaps barely escapes with his life. We strongly recommend all persons whatsoever to avoid this great error, as they value their health or their lives. To wear flannel properly, it should remain upon the person day and night, and be shifted only once a week, or thereabouts, according to circumstances. Too frequent shifting is injurious. When employed in this careful manner, and when the tepid bath is also occasionally used, the person is preserved in that comfortable and proper condition, exteriorly, which is the most conducive to health and longevity.

To my former patrons, I offer my sincere thanks for their liberal patronage, and from their many kind assurances, I flatter myself I shall not regret, that through "others" instrumentality, the "Old Line" has been placed on a "New Route."

The lovers of Reading will always find a Table amply supplied with some of the most interesting "Journal of the Day."

MISCELLANY.

DESERTED AGE.

One of the most touching sorrows of old age is its solitude. To outlive the world in which we were born—to be the last survivor of our generation, is, to any a melancholy position to occupy, but bleak and dreary in the extreme to him who has no hope of a brighter existence beyond the grave. Our natural repugnance to death renders us willing to live on, but what sorrowful changes are produced by the lapse of a few years! One generation passes, and another springs up; and he that passes on to a third, finds himself a stranger in the world. Familiar faces have disappeared; loved ones have passed away; joys are only remembered, and the remembrance is sorrowful; busy thought brings back the vision of happiness departed and never to be recalled; and a sense of painful loneliness falls on the heart, although the world around is busy as ever. We have felt melancholy thoughts obtruding themselves on our mind as we have gazed on a solitary tree that had escaped the axe, which had prostrated the whole forest besides; and now in its age, withered at the top and decayed in its branches, was left to encounter every storm. But a sorrowful feeling has possessed us, in beholding the aged and decrepit man, who has lost the fire of his eye and the vigor of his limbs, and from whose side had been struck down all who had felt an interest in his existence. The fashion of the world passes away, each succeeding year sunders some endearing tie; and sad and melancholy must be our lot, if, amidst the wreck which the storm of death produce, we have no brightening hope of renewal of our youth in a happier and more genial clime.—*Presbyterian*

WAR OR PEACE.—The *Liverpool Chronicle* of the 3d remarks: "The note of preparation still goes on in France, and we read of nothing but *bella, horrida, horrida bella* in every journal which comes from that country, but still we have no idea that peace will be disturbed. Louis Philippe knows better than rashly to appeal to the *ultima ratio* of the sword. At present it is the combined public opinion of moderate men in France and England which supports his throne against the aggressions of foreign despots and the designs of Gallic republicans. If the tie which links the two countries together, were severed, he would no longer have England to rely upon against his foreign and domestic foes. He would be left to contend, single handed, with both, and his crown, in all probability, would pay the forfeit for the folly which induced him to break with his best friends: We can well understand why he should for a time appear to encourage the warlike propensities of his subjects. He has fierce spirits to deal with who may be more easily gained over by humoring than opposing the tide of passion while rushing in upon the flood. Besides, the King of the French is a man wise in his generation. While his loving subjects are laboring with the project of fortifying Paris. When that is accomplished, he will be master of Paris.—At present he is not. No! No! we shall have no war. Louis Philippe's preparations are not against this country. They are to serve him self against domestic foes."

ARRIVAL OF THE ARCADIA.
The Royal Mail Steamer ARCADIA, Capt Miller, arrived this morning, and went into her dock at half past 8 o'clock, making another splendid and unrivalled passage of TWELVE AND A HALF DAYS from Liverpool, and 31 hours from Halifax. We have London and Liverpool papers to the 4th inst. She had 22 passengers to Halifax and 72 to Boston.

The news is highly important, and is of a decidedly warlike character, although some of the English journalists are of opinion that every thing will be settled amicably. Among the peace papers is the *Liverpool Chronicle*, an extract from which paper of the 3d inst, will be found below.

EASTERN AFFAIRS.—Advices from Alexandria come down to the 6th ult. On the 27th August, Mehemet Ali called together a council of the Ministers, Bey and Sheiks of several Arab tribes, to whom he submitted the propositions of the Four Powers, together with a letter from Ibrahim Pacha, who offered to renounce in his own right the hereditary possession of Syria. The assembly approved of those terms, and on the following day the Viceroy, having summoned the four Consuls to his palace, declared to them, that he would content himself with Egypt and Acre, and restore the fleet to the Sultan, provided he was permitted to hold the government of Syria during his life.—The Consuls replied, that they had no power to interfere with or modify the conditions of the ultimatum, and that they could not accordingly comply with his last request. The French Consul took no ostensible part in the affair, but on the 30th sent off M. Walewski, in the Pippin, for Constantinople, with the proposition of the Pasha. The result of this interview had caused great disappointment among all classes of the population, who had indulged the hope of a pacific solution of the pending difficulties, and fresh apprehensions were entertained when the preparations for defence were found to be carried on by the Pasha, with redoubled activity.

NEW AMERICAN COIN.—The United States Mint is engaged in coining a new dollar, none of which are yet but soon will be, but in circulation. The new coin is of smaller diameter, and consequently more convenient than the Spanish coin, and is altogether better executed. It is a fact not generally known, that three years ago a new die was got up, the coins from which looked so outrageously that it was broken.

MECHANICAL GENIUS.—It is stated in the Philadelphia Ledger, that there is now on exhibition at the Franklin Institute in that city, a large and perfect telescope, the whole of which is the work of a black man, who earns his daily bread as a stevedore, on the wharves. It is said that he worked at it only at night, when the fatiguing labors of the day were over. Not only the exterior machinery is his, but the materials of the glasses and lenses were prepared entirely by the ingenious black.

ADMIRAL STOPFORD landed at Alexandria on the 31st, and was accompanied to the Palace by Col. Hodges, who presented him to Mehemet Ali. The latter received him with great courtesy, and invited him to dine on the following day, but, being indisposed, he was obliged to countermand the invitation. The British merchants having waited upon the admiral, to ascertain what course he intended to pursue, should the Viceroy decline accepting the ultimatum, he candidly answered that he had no orders on the subject, and, consequently, was unable to advise them. The 5th being the last of the second period of ten days, involving the fate of Egypt, Rifat Bey, M. Alison, and the four Consuls, called at the Palace to receive Mehemet Ali's final reply to the ultimatum. The Pasha, being unwell, was not visible, and the answer was communicated to them by Boghos Bey and Sami Bey. Mehemet Ali declared that he accepted the hereditary pashalik of Egypt, and had forwarded a petition to

The latter received him with great courtesy, and invited him to dine on the following day, but, being indisposed, he was obliged to countermand the invitation. The British merchants having waited upon the admiral, to ascertain what course he intended to pursue, should the Viceroy decline accepting the ultimatum, he candidly answered that he had no orders on the subject, and, consequently, was unable to advise them. The 5th being the last of the second period of ten days, involving the fate of Egypt, Rifat Bey, M. Alison, and the four Consuls, called at the Palace to receive Mehemet Ali's final reply to the ultimatum. The Pasha, being unwell, was not visible, and the answer was communicated to them by Boghos Bey and Sami Bey. Mehemet Ali declared that he accepted the hereditary pashalik of Egypt, and had forwarded a petition to

Constantinople by Count Walewski, praying the Sultan to permit him to retain the government of Syria during his life, in order to avert the disgrace of being dispossessed of his honorary employment in his old age. He then added that, until he received the Sultan's reply, he could not think of giving his master's fleet into the hands of the Representatives of the Powers, or of surrendering an inch of the territory of Syria. The Pacha concluded by a assurance to the European residents that his Government would protect them in their lives and properties. It was expected, after this declaration, that the Consuls would strike their flags, and remove on board the squadrons, but down to the 6th they had not yet taken that step. Admiral Stopford sailed on the morning of the 6th, for Baroot, with the Princess Charlotte and Bellerophon, leaving the Asia and Implacable before Alexandria. Advices, dated the 7th, state that notwithstanding Mehemet Ali's refusal to deliver up Syria and Candia, the Turkish Government had nominated Pashas charged with the government of the various cities in those two districts. A great council was held on the 3d ultimo, at the Sheikh-ul-Islam's, in consequence of the intelligence having arrived that Mehemet Ali having refused on the first summons to accept the conditions offered him by the treaty of London, Mehemet Ali was accordingly declared to have forfeited the government of Syria. The *feta* excommunicating Mehemet Ali, declaring that he has forfeited his right to the government of Syria, and authorizing war to be declared against him, was given by the Sheikh-ul-Islam, and read in all the mosques. The Austrian Intendant has assembled the principal Austrian merchants at his house, to advise them to suspend their shipments, for Egypt and Syria, as both those countries would shortly be blockaded. The French Government had, according to some accounts, sent orders to their Admiral to avoid, as far as possible, a collision with the English fleet. The French fleet, under the command of Admiral Hugon, had been seen in the neighborhood of Corgo, and the twelve vessels, of which it consisted, were said to be bound for Syria. The Russian fleet was waiting at S-Bastopol for orders to put to sea. It consisted of thirteen sail of the line, eight frigates, four brigs, and five steamers, and 20,000 men, detached from the army of Bessarabia were to embark in it for Constantinople. The Russian Government had sent agents into the Dardanelles to obtain and forward to Odessa the earliest information respecting the movements of the squadron in the Mediterranean. According to accounts from Alexandria of the date of the 7th ult., the Consuls of the Four Powers struck their flags on that day and quitted Alexandria. There existed some doubt, however, as to the departure of the Austrian Consul. The port was protected by a battery of nearly nine hundred guns. A suspicion appears to have been entertained that a sudden attack on St. Jean d'Acre or Beyrout was intended by the English forces. On the 30th of August, this intelligence was received, and it is that if the combined fleet should endeavor to interrupt the commercial relations between Europe and the states of the Pasha, France cannot suffer such an attempt to be carried into execution. Lord Ponsonby is described as urging the departure of the transport destined to carry to Syria some thousand Turks now collected in the Isle of Cyprus, who are to be placed under the command of Col. Smith. [From the London Sun, of October 3— evening.] We have this moment received the following important communication from our correspondent at Paris: PARIS, Oct. 2, Half-past Eight. I hasten to inform you that the French Government have received the following most important telegraphic despatch;—MALTA, Sept. 27.—The Prometheus, which left Beyrout the 20th, announces, that after a bombardment of nine hours, which reduced the town to ashes, the Egyptians evacuated the town in the night, and the allies took possession of it. The Oriental, which quitted Alexandria on the 24th, makes known that the firmman despatching Mehemet Ali, had been communicated on the 21st to his Highness, by the Consuls General of the Four Powers, who instantly struck their flags, and retired on board their shipping. (Copy) "Director of the Telegraph Flocon." The above is the most important and alarming intelligence that could be received. As members of the French Government have said that if the Treaty were executed a "l'outrance, there must be war. I dare not say more to alarm the public mind, but I view it as much fatal news, and I have good reason to do so. HOLLAND.—The King of Holland, it appears, has abdicated. A Brussels correspondent of a London paper writes; "I hasten to communicate to you the most important news, just received by the Amsterdam papers, that his Majesty, before setting out from the Hague, for the Castle of Loo, announced to his subjects, his intention of abdicating. In a few days a proclamation will be issued, by which his Majesty will inform his subjects of his resolution. I am enabled to assure you, from private letters I have this moment received from Holland, that this news has an official character." The Observateur of Brussels gives several extracts from the Dutch journals, which confirm this intelligence. The King had made known his resolution to some of his Ministers before his departure for the chateau of Loo. The Han-edischblad makes the same announcement, and adds that "the King went to Loo

with Baron Fagel, one of his oldest friends, who had but recently arrived from Paris, where he had performed the functions of Minister Plenipotentiary at the French Court. The Prince and Princess of Orange are summoned to meet the King at Loo, on Monday next."—The Dutch papers do not even hint at the causes which have led to this determination on the part of the King; but it is thought in Brussels that he has descended from his high estate, solely to accomplish in private life the union with an amiable lady of his Court, which met with so much opposition when first announced to the Dutch people about a twelvemonth ago. IMPORTANT FROM CHINA. A letter dated Bombay July 23d, nine P. M. states that an express had arrived from Calcutta, bringing intelligence that news from China had been received there of the arrival of part of the expedition in the Canton river, and of the total destruction of the forts of the bocca Tigris. The truth of the report was not doubted. A correspondent of the London Standard gives the following additional particulars. "After the vessels had destroyed the forts of the Bocca at the entrance of the Bocca Tigris, some troops and seamen were sent on shore to put them in a state of defence against the Chinese. The expedition then proceeded towards Whampoa, having pressed two Chinese pilots; but on reaching Second Bar, the passage for large vessels was impeded by the Chinese having taken the precaution to sink some large junks; however, the smaller vessels and steamers will almost immediately proceed with a strong military force to raise Canton to the ground." DEATH OF THE PRINCESS AUGUSTA.—The Princess Augusta expired at seventeen minutes past nine o'clock, Sept. 22d, at Clarence House, St. James's, after a long and very trying illness, which her Royal Highness bore with the utmost patience and meekness. Her Royal Highness was in her 72 year, having been born 8th November, 1768. She was the sixth child and second daughter of George III. and Queen Charlotte. The Princess was entombed with the most solemn ceremonies on the 2d October, at midnight, at St. George's chapel. Her remains lay in state from 11 to 4 o'clock on the 2d, at Frogmore. The apartment to which the mournful solemnity took place was hung and lined with black, the sides lighted with numerous silver sconces, containing wax-lights in double rows an escutcheon of her late Royal Highness's coat of arms being placed between each row. The coffin was uncovered at the end, displaying the crimson velvet and gilt ornaments, and at the top of the coffin was placed the coronet of the late Princess, on a cushion trimmed with gold—Three massive and very handsome gold candlesticks were placed on each side of the body, containing large wax candles, and on the wall nearest the coffin was a hatchment of the Royal Arms. FRANCE.—The Paris moniteur, of the 1st inst., announces that by a Royal order of War of 51,674,000 francs, to provide for urgent expenses resulting from the increase of the effective and material of the army. The sanction of the Chambers for this extraordinary credit will be applied for at the approaching session. An Arab force had been defeated, on the 18th ult., near the Oued Boudson. The trial of Prince Louis Napoleon, was going on. The whole of Thursday (Oct 1) was occupied by the speeches of the counsel for the defence. The French papers publish a transcript taken from the Belgian journals, of a note addressed, on the 31st of August last to Mr. H. L. Bulwer, British Minister at Paris, in the absence of Lord Granville, the object of which is to prove that it was France that voluntarily separated from the Four Powers, and not the Four Powers from France. There was a rumor that Admiral Lande was about to return and proceed with the squadron of reserve to the Straits of Gibraltar. SPAIN. Accounts from Madrid are to the 25th ult. Several despatches had been received at Madrid from Valencia, and were immediately conveyed to the Junta, and opened in conformity with the bando of the 12th of September. One of these despatches, addressed to the political chief of Madrid, contained a circular note for all the authorities of the provinces which had joined the movements, informing them of the appointment of Gen. Espartaco as Minister, with power to form a Cabinet. This circular was signed by Senor Cabello, in the character of Minister of the Crown, and the Junta not recognizing this title, resolved that the circular is null and void, prohibiting at the same time its communication to the authorities of the other provinces. The Junta had ordered a fresh advance of half a million of reals to the Military Intendant, to be applied to the payment and maintenance of the troops. Considerable exasperation had manifested itself in Valencia against the French, but particularly the Ambassador, M. Mathieu De La Redorte, who was accused of encouraging the Queen in her system of resistance, and in consequence, he was shortly expected at Perpignan, from Valencia. Senor Castillo had left Valencia for France. Gen. O'Donnell had obtained leave to embark for the same destination, but would not quit Valencia before the departure of the Queen. Advices from Barcelona, dated 25th ult., announced the departure of Gen. Espartero for Madrid on that day, accompanied by his private Secretary,

PARTIAL DESTRUCTION OF THE ROYAL ARSENAL AT DAVENPORT.—About half past 4 o'clock on Sunday morning, the 27th Sept, the Talavera, a 74 gun ship was discovered to be on fire. The Minden another 74, was lying in the same dock, a pair of flood gates only separating the two ships. Immediately, on observing smoke issuing from the Talavera, the sentry discharged their muskets, as a signal of alarm. The most prompt assistance was immediately given, but before the engines could be brought to bear upon her, the flames burst forth with terrific fury, setting at defiance every effort to arrest their progress. The fire soon communicated to an adjoining gallery, which together with the shed, was soon destroyed. All hope of saving the Talavera being at an end, exertions were made to preserve the Minden, and she was saved although much injured. Another vessel, however, the Imogene, which lay at some hundred feet distant, caught by the flames running along the sheds, and was destroyed. Attention was now diverted to prevent the fire from communicating to the other part of the yard, and by pulling down sheds and sawpits, the efforts were successful. The flames were now in check, and, by 10, all danger was over. The gallery adjoining the dock, and which was destroyed contained the splendid collections of trophies and memorials of British naval triumphs, comprising the figure heads, masts, &c. of the most celebrated men of war, and above all, the flag of Lord Nelson—that beneath which he fought, conquered and died. The fire is supposed to have been caused by an incendiary. Attempt to Fire Sheerness Dockyard. Sheerness, Friday evening, Oct. 2 8 P. M. Her Majesty's ship Camperdown, 120 guns, was attempted to be fired, in the Basin this evening, by some incendiary. The fire was discovered in the Midshipman's berth, but was extinguished after burning a locker; but on further search a well laid train was discovered in the warrant officer's store-rooms, consisting of rosin, oakum, and lucifer matches. The Steam Ship President, Capt. Kean, left Liverpool on the 1st of Oct. for New-York, with 140 passengers, 2000 packages, and 500 tons of goods. Capt. Fayer had been dismissed by the directors of the company, on account of the great disappointment at the result of the voyage out and home of the President. The letter of dismissal says:— From whatever cause this arises, the result to the proprietors is most disastrous and sufficient to condemn the vessel and all connected with her. The draft of water she left New-York upon, and the weather she had on the passage, were quite sufficient to ensure her a fourteen days' run at the outside; and the directors consider that her not making the passage in that time reflects any thing but credit on the way in which she has been sailed. The steam packet Sirius arrived at the London Docks from St. Petersburg, on the 1st inst. She left Leningrad on the 1st inst. and had on board 12,000 men were embarked at first, and in the event of Ibrahim's marching on Constantinople, a second expedition would be sent. The English editors, generally, are disposed to make themselves merry with the warlike preparations of the King of the French. The following, from the Liverpool Mail, is a specimen of their braggartism:— The King of the French is only fulfilling his destiny. He and his arrogant and gambling ministers threaten Europe with war—particularly addressing their frantic menaces to England—arming at all points—talking of marching one hundred thousand men to the Rhine, and indulging in the airs and grimaces of a lunatic fiddler or dancing master, who imagines that he is the ruler and dictator of the world. The services of the press of Paris who write under the influence of silver money, and who dare not call their souls their own without the risk of being sent to the gaol or the hulks, indulge in the silly and schoolboy menaces of annihilating the supremacy of England. We can afford to laugh at this empty and idiotic threat. Our navy we admit, has been sadly and disgracefully neglected. The whig ministry should have been hung at its main yards long ago; but still it is not to be insulted with impunity by a race of garrulous politicians, one-third of whom are active speculators' as M. Thiers is, upon the Bourse, and the remainder parvenues without character, scribes without principle, dismissed clerks, and discharged footmen. They talk of destroying the British navy! We have steam-power sufficient to annihilate their whole navy in a single week. We could walk, under the shelter of this power, into any part of France at six hours' notice. But let any quiet and reflecting man look seriously at the condition of France, and the terrible tyranny, under the mask of self-defence, which the popular citizen king is meditating and carrying into execution, as a coercive measure of restraint upon the citizens of Paris. His threat of war against England is a mask. His rampart and bastion protection, or rather the thralldom, of the Parisians is his design. He threatens England with hostile attacks, but all his guns are pointed toward the people and the shopocracy of Paris who elevate him to the throne. Disinterested sovereign! sensible and generous people!

THE NEWPORT MERCURY. NEWPORT, SATURDAY, October 24, 1840. The General Assembly Of this State, will meet at Bristol on Monday next, agreeably to adjournment. A U. S. Senator is to be chosen at this Session, in place of Mr. Knight, whose term expires on the 4th of March next. The Steam ship President, Capt. Kean, arrived at New York on Sunday morning, from Liverpool. Very Late Foreign News. By the Steam ship Acadia, arrived at Boston on Saturday morning last, in 12 days from Liverpool, London papers to the 2d of October have been received.—Very interesting extracts from them, will be found under our foreign head. Pennsylvania Election. The N. Y. Journal of Commerce of Thursday last, gives the result of this Election on the Congressional ticket, as follows:— Van Buren, 122,600 Whig, 117,495 Van Buren maj. 5,105 Showing a Van Buren loss, compared with 1838, of 2658, and compared with 1836, a V. B. gain of 874. The Legislature will consist of:— Senate, Whigs 20, Van Buren 13; being a Whig gain of 4 Senators;—House, Whigs 51, Van Buren 49. Members of Congress.—Whigs, John Sergeant, George W. Tolland, John Edwards, J. Brown, F. James, R. Ramsay, Wm. Sumonton, James Cooper, James Irvin, C. Ogle, J. Lawrence, Wm. W. Irvin, Thomas Henry—13. Van Buren,—C. Brown, C. J. Lager soll, J. Fornan, J. Westbrook, Peter Newhard, George M. Keim, J. Gerry, Wm. S. Ramsey, B. A. Bidlock, J. Snyder, D. Dimock, A. G. Merchant, Arnold Plamer, Wm. Jack, E. Hook—15. Ohio Election. This State has gone for the Whigs by a large majority. The following is the vote for Governor in all but six counties. The counties to be heard from, may diminish the Whig maj. 500 or 600 votes. Corwin, (Whig) 76,761 Shanno, (V. B.) 59,459 Whig majority, 17,309 21 Van Buren, and 15 Whigs;—House, 49 Whigs, and 23 Van Buren,—Whig majority in joint ballot, 20. Members of Congress.—N. G. Pendleton, P. G. Goode, Jeremiah Morrow, C. Morris, Wm. Russell, Joseph Ridgeway, Sampson Mason, R. S. Cowen, J. T. Matheot, S. J. Andrews, J. A. Geddings, S. Stockley—12 Whigs. J. B. Weller, Wm. Doane, Wm. McDill, James Mathers, George Sweny, John Hastings, Ezra Dean,—7 Van Buren.—Whig gain 4. N. G. Pendleton, Whig, is elected in place of Dr. Duncan, V. B. by a maj. of 60 votes. Georgia Election. The votes for the Congressional candidates in 85 counties of Georgia are for the Whig Ticket, 38,569. Van Buren, 34,012. There are eight counties to be heard from, which will probably reduce the majority a little below 4000. ARKANSAS ELECTION. We learn on the authority of the Louisville Gazette, that it is supposed that in the election in Arkansas which took place on the 7th inst. Mr. Yell is chosen Governor without opposition; and that Mr. Fowler, the Whig candidate, is elected to Congress. CENSUS OF MIDDLETOWN. We have been favored by Mr. N. WYATT, the Marshal's Assistant, with the following abstract of his return of the Census of Middletown. White males, 450—do. females, 429, 879 Colored do. 8—do. females, 4. 12 Total, 891 In 1830, the population was 915—decrease 24. Mobile.—The population of Mobile, according to the new census, as published in the Mobile Register, numbers 12,700, of whom the white males are 5,657, white females 2,616—less than half the number of males. The number of free colored males is 250, females 295, male slaves 1,907, females 1,975; total of slaves 3,882. Alexander Bogart alias McLeod, who it will be remembered, left Richmond about two years since, after committing some forgeries, for which the Governor issued a proclamation, offering a reward for his apprehension, was arrested a few days since in Albany, and has been taken quick to Richmond and lodged in jail, to await his trial.—Richmond Compiler

Presidential Elections. There are no more State Elections to be held, until the choice of Presidential Electors. The following schedule shows the date of the Presidential Elections in the different States, with the number of Electors to which each State is entitled. States. Date of Election. No. of Elects. Pennsylvania, Oct. 30 30 Ohio, Oct. 36 21 Connecticut, Nov. 2 8 Rhode Island, do. 4 Maine, do. 10 New-Hampshire, do. 7 Virginia, do. 23 Missouri, do. 4 Illinois, do. 5 Arkansas, do. 3 Georgia, do. 11 Indiana, do. 9 Kentucky, do. 15 Michigan, Nov. 2 and 3 3 New York, Nov. 2, 3 and 4 42 Louisiana, Nov. 3 5 Tennessee, do. 15 New-Jersey, Nov. 3 and 4 8 Mississippi, do. do. 4 Massachusetts, Nov. 9 14 Maryland, do. 10 10 Alabama, do. 7 Vermont, Nov. 10 3 Delaware, do. 3 North Carolina, Nov. 12 15 South Carolina, (by Legislature) 17 Total, 294 Equal to the number of Senators and Representatives in Congress, to which the several States are entitled. All are elected by general ticket, except the election in South-Carolina. ADMINISTRATION CONVENTION. The Friends of the National Administration, in this State, will hold a Convention at Providence, on the State-House Parade, This Day, Oct. 24th. The Hon William S. Ramsay, a member of Congress of Carlisle, Penn. committed suicide, by shooting himself through the head, on Saturday evening last, at Barnum's Hotel, in Baltimore.—He was of the Administration party, and was recently re-elected by a large majority. The Baltimore Sun says that he was 29 years of age, and that "rumour attributes the suicidal act to disappointed affection." From the Baltimore American of Tuesday. The measures voted by the Council of the City Council, resulted as follows:—Leakin, (Whig,) 6887; Brady (V. B.) 7119—Majority for Brady 232. At the State Election on the 7th inst. the Van Buren majority on the Senatorial ticket was 270, and on the Delegate 191. The V. B. party have succeeded in 7 out of 12 Wards, giving them a majority in both branches of the Common Council. Accounts from New Zealand announce that the whole of the Islands have been taken possession of by the British Government. A captain in the royal navy William Hobson, Esq. on the 21st of May, issued a proclamation, printed by the Church Missionary Society's press at Pahia, declaring that the Northern Island of New Zealand vests in her Majesty Queen Victoria, her heirs and successors for ever. Lieutenant Governor Hobson states that the treaty with the chiefs was ratified on the 3th of last February. SMUGGLING.—This nefarious branch of business, which has been carried on for months on the northern frontiers, according to the Buffalo Journal, is receiving some check from the indefatigability of Deputy Marshal Best. In addition to cases already mentioned, that officer recently seized another lot of goods, which were intended to be run in without first paying the duties. The quantity of goods now under condemnation is large. The vote on the question of the retrocession of the town and county of Alexandria to the State of Virginia was taken on Tuesday, and was largely in favor of that measure. Mr. Grinnell having declined being a candidate for re-election to Congress, in the city of New York, Mr. Frederick A. Tallmadge has been nominated in his place. The Public Schools of Philadelphia, are represented, by a recent report of the Comptrolers in a flourishing condition. CANKER WORMS.—The N. E. Farmer contains certificates signed by more than fifty persons, representing that they have used J. Dennis, Jr's patent trough and roof for preventing canker worms or other insects from ascending trees, and are satisfied that it is cheaper more effectual and more durable than any other method which they have any knowledge of, and requires less care and attention.

STATE ELECTIONS. South-Carolina.—The following gentlemen, all Van Buren men, have been elected to Congress from this State, without opposition. 1st district, Isaac E. Holmes; 3d do. F. W. Pickens; 6th do. S. H. Butler; 8th do. R. B. Rhett. In the other districts, several candidates were voted for, and the result not ascertained. NAVAL.—Com. John D. Sloat has been appointed to the command of the Portsmouth station, in place of Commodore Craue, who retires on leave of absence. Levi Lincoln has been nominated for re-election to Congress, from the Fifth Mass District. From the New-London Republican, of Thursday last. SALE OF THE ARMISTAD. In pursuance of a decree of the Circuit Court, this famous vessel, together with her cargo, was on Thursday last sold by auction, under the direction of the marshal of the district, at the custom house in this city. An appraisal was had of vessel and cargo when the goods were first landed. We understand that the amount of that appraisal was about 6000 dollars, and that the gross sales will amount to within 4 or 500 dollars of that sum. The vessel was valued by the appraisers at 600 dollars, and sold for only 245 dollars. She is of some 50 or 60 tons burthen, built in Cuba, and said to be old. Her sails are all worn to shreds, and a large expenditure would be necessary to render her sea worthy. The cargo consisted principally of assorted dry goods, calculated for the Spanish market; a large proportion of them were German linen goods, invoiced listados and platillas; most of these were more or less damaged, and some of them very much so. It is rumored that she had on board a large amount of valuable silk goods. With the exception of four or five dozen gauze, half a dozen flag, and one piece of Canton handkerchiefs, she had no silk goods on board. The remaining dry goods were low priced British prints and gingham, a few pieces linen drills, bed ticks, cotton handkerchiefs, muslins, threads &c. Many of the cases had been broken open by the negroes, and several hundred yards of the linen goods were cut up into pieces of from one to ten yards. There were also one or two cases partly filled with toys, and one or more with saddles and saddler's trimmings—a quantity of sole leather and calf skins, and about two hundred boxes of vermicelli—of the latter article many of the boxes had been broken open and their contents scattered about, and among the others and boxes had been— One hundred and forty boxes of that which was in the best condition sold for four and a quarter cents the pound. About 20 boxes of castile soap sold at between nine and ten cents the pound. The sole sides, sold at from seven to twenty and a half cents per pound, and of the remaining articles of cargo consisting of small invoice of glass and cr. glasses, a &c. we are told that they sold very well, their true value under the circumstances. A lot of castings designed for canoes, sold at \$3 12 1/2 per cwt. Important Arrest.—An Englishman by the name of William Wallace, was arrested last night, at his residence in Second street below Federal, by officers L. H. Smith and Maginnis, charged with being concerned in obtaining letters from the Post Offices in Boston and Providence, containing drafts and notes to a large amount. Three or four others were connected with him, two of whom have been arrested. The last attempt was made in Providence, on the 25th of Sept. when they obtained a letter containing a note for \$287.50—which was found upon one of the gang calling himself John J. Hanna, alias Wm. Redmen. The one arrested, Hanna, in New-York, by the name of Bernard, gave information of Wallace, when Jacob C. Gould, police officer of Providence, came on to this city, and succeeded in finding him out. They employed boys to get the letters from the Post Office. It is supposed that near \$20,000 in drafts and notes, most of which they have sold, have been purloined by them—one for \$394, drawn in favour of Osie Newcross & Co of New York, and on Mr. Benson of this city, was accepted and paid, the endorsement of Osie Newcross & Co. being forged. Wallace is well known to the Police. From information given to one of the Barks in New York, there is strong reason to suspect that several merchants' clerks, and some of the clerks in the Post Offices, were cognizant of these transactions. Wallace was committed as a fugitive from justice to await the requisition of the Governor of Rhode Island.—Phild. Gaz.

BLOODY TRAGEDY.—The Olive Branch of the 15th ult. published at Montreal, containing the account of a fatal bloody encounter which lately occurred in Bayou Mason, in the Parish of St. Louis. The particulars were given to the editor of the Olive Branch by a gentleman from Lake Providence.

It appears that suspicion had long been entertained of a secret association of robbers on Island No. 62 in the Mississippi, where country was rife with accounts of their depredations. After the late murder of a Mr. Webb, on Bayou Ma, it became the determination of the people to use every means for their extermination. One of the clan, a man by the name of Lavery, was known to be at house of Garrett P. Rollins, on the river, and was extensively known as a thief. Mr. Wm. A. Colman, deputy sheriff of Carroll, determined to arrest him, and for that purpose started in company with three others, in pursuit.

Arriving near the house they separated, Colman and one of the men going in, and the other two to the back part, where in the meantime had been a double barreled gun. Colman commanded him to surrender, then asked Colman if he intended to shoot him. Colman replied that unless surrendered he most certainly would fire his gun so nearly together that the difference could scarcely be distinguished. Lavery was shot with a double barreled gun and fell dead on the spot, one shot entering his throat, another in the chest, and 12 just below the nose. BOOKS, Lent—and not returned.

3 D Volumes London Monthly Review, being one of a set of 106 vols.—1st vol. Knowles' history of Turkish Empire—4th vol. Dr. Reid's works—2d volume Kaims' elem. Criticism—Lactantius works all 4 vols.—Savary's letters on Egypt, both vols.—Tasso's Jerusalem delivered, both vols.—Hume's Essays, 2 vols.—Memoirs of Count de Grammont, 2 vols.—Memoirs of Marmontel, 2 vols.

I find that there are over 50 vols. more of my Books loaned out, but I shall be glad to get back those above named.—Do let me have them again, good friends, at least those which belong to valuable sets; the detention of which will be a serious injury, while the odd volume kept, will be of no use to any body.

But you do not remember that you ever borrowed any books of me, and do not think that you have got any of my books. To be sure you don't, for whoever took the trouble to remember any thing about borrowed books, or the owner? But it is not a bit the less certain that my lent books are all of them, somewhere about the houses of some or others of you, and, if you will take the least trouble to make a very slight search, you will be sure to find them.

If any of you will be so uncommunally obliging as to take this little trouble, and will send the books you may find to the Book & Stationary Store of Wm. & J. H. BARBER, I shall consider my self as having received so many handsome presents from you.

EARLY WOOD AND WON!

BY MISS ARDY.
Early wood and early won,
Was never repented under the sun.
German Proverb.

O! sigh not for the fair young bride,
Gone in her opening bloom,
Far from her kindred, loved and tried,
To glad another home;
Already are the gay brief days
Of girlish triumph done,
And tranquil happiness repays
The early wood and won.

Fear shall invade her peace no more,
Nor sorrow wound the breast;
Her passing rivalries are o'er,
Her passing rivalries are o'er,
The gauding haunts of worldly state
Love whispers her to shun.
Kind scenes of pure bliss await
The early wood and won.

Here is a young and guileless heart,
Confiding, fond, and warm,
Unwielded by the world's vain mart,
Unscarred by passion's storm;
In "hope deferred" she hath not pined,
Till Hope's sweet course was run;
The chains of sad remembrance bind
The early wood and won.

Her smiles and songs have ceased to grace
The halls of her dear home,
But woman's safest dwelling-place
Is by a true one's heart;
Her hours of duty, joy, and love,
In brightness have begun;
Peace be her portion from above,
The early wood and won.

THE HAIR! THE HAIR!

NO better evidence is wanting
to show the superiority of the
Genuine Buffalo Oil, over the
preparations, than a number of
Druggists are endeavoring to imitate and
their miserable imitations on the public,
genuine. Read advertisement. Beware of
imitations.

Genuine Buffalo Oil is fast taking the place
of all other articles to promote the growth, soften
and beautify the Hair; it gives it a softness
that no other article does, and causes it to curl
beautifully—by free use it will darken and give
the hair a rich gloss. It is highly perfumed and
gives perfect satisfaction to all that have given it
a trial. You will observe the signature of the
proprietor, "William Brown," also, "Buffalo
Oil," imprinted on the bottle. In consequence
of a counterfeit which has recently appeared and
is now for sale, I have been persuaded to obtain
a new label engraved on copper, for which I
have secured a copy right, entered according to
act of Congress in 1839, in the clerk's office
in the District Court of Massachusetts. Any
infringement will be dealt with according to law.
None genuine, unless signed in my own
hand writing. For sale in Newport by R.
J. TAYLOR and Dr. R. R. HAZARD
August, 22.

NOTICE ALL.

THE Subscriber deems it necessary
to close up all Notes and Accounts
appertaining to the late firm of *Weeden
& Bull*, and to this end requests all who
are indebted to said firm, (except in the
few cases where credit has been particu-
larly stipulated for,) to make immediate
payment, or offer satisfactory terms for
the future liquidation of the same; as all
such Notes and accounts as remain un-
paid, on the 1st day of Feb. next; where
the non payment of the same is an act of
neglect, rather than of ability, must be
sued for collection.

I cannot recognize the correctness of
the principle of charging Good customers
more than a fair profit, to make up for
losses occasioned by selling to those who
are reputed for bad pay;—and as I so-
licit the patronage of those only who are
able, and willing to pay, I do with a
view to sell to all my Customers alike, at
as small a profit as I can possibly afford to.

INDIAN BALM OF LIVER- WORT.

A COUGH is always Dangerous. In old
changeable and severe climate, it is as
important to attend to COLDS, with which
we are all more or less afflicted. If neglected
too long, it is difficult to remove them, some-
times impossible, and confirmed consumption
is the result. In all Lung complaints, Mrs.
N. M. Gardner's Indian Balm of Liverwort
is justly esteemed of infinite value. It has
been used for eight or ten years with unpa-
relled success, and many individuals might be
named, who, but for its healing virtues and re-
moving powers, would not be present now to
attest its efficacy.

At a subsequent meeting of the Direc-
tors the same day, GEORGE ENES was chosen
President, and CHARLES GILES, Treasurer.

COUGHS, COLDS.

AND ALL DISEASES OF THE LUNGS.

THE VEGETABLE PULMONARY
BALM is believed to be deservedly
the most popular Medicine ever known in
America, for coughs, colds, asthma or phthisis,
consumption, whooping cough, and Pulmo-
nary affections of every kind.

The Vegetable Pulmonary Balm has been
very extensively used for about 12 years; and
its reputation has been constantly increasing
so universally popular has this article become
that it may now be considered as a standard
article in a large part of the United States,
and British Provinces. Many families keep
it constantly by them, considering it the most
safe as well as certain remedy for the above
complaints. The Proprietors have received,
and are receiving numerous recommendations
from many of our best Physicians, who make
use of it in their practice. The names of a
few individuals who have given their testi-
mony in favor of this article, are here subjoin-
ed, and for a more full account see the enve-
lope to the bottle.

CASE.—Extract of a letter from Mr. C.
Clay, Kingston, Ulster county, N. Y.
to the Proprietors.

Years of the most distressing colds, and
A remarkable cure was effected by the Vege-
table Pulmonary Balm, in the Winter and
Spring of 1839. The person, Mr. Moody, had
been sick a long time with the consumption.
His physician had given him up. He was re-
duced so low as to be unable to help himself,
and was raising a large quantity of blood, when
he commenced using the Balm, which effected
a complete cure, and he is now as hale and
hearty as ever but Mr. Moody has re-
moved from this town but he has promised me
a more detailed account of his case, which I
will forward you. C. S. CLAY.
Kingston, N. Y. June 25, 1838.

Argyle, Nova Scotia
In the winter of 1837 and '38, I was seized
with a violent cough, which continued two or
three months. My cough was so severe that I
was obliged to sit up in bed two or three
hours during the night, and I was much re-
duced in flesh and strength, and my appetite
gone. One of my neighbors had a bottle of the
Vegetable Pulmonary Balm, which he would
not sell. He however loaned it to me till I
could procure him another. I experienced
immediate relief from it. The first opportu-
nity I had, I procured more of it, and to the
use of it I ascribe the preservation of my life.
Dec. 17, 1838. JAMES W. LIGNON.

Counterfeits, Beware of Imposition!
Each genuine bottle is enclosed in a blue
wrapper, on which is a label, signed by
Sampson Reed. None other can be genuine.
The outside Yellow Label will have on
and after December 1839, in addition to
that of Sampson Reed, the signature of W.
J. CUTLER, or his partners.

The great celebrity of the Vegetable Pul-
monary Balm has been the cause of attempts
to introduce spurious articles which by par-
tially assuming the name of the genuine, are
calculated to mislead and deceive the public.
Among these mixtures are the "American
Pulmonary Balm," "Vegetable Pulmonary
Balmic Syrup," "Pulmonary Balm,"
"Cutter's Compound Pulmonary Balm,"
and others. Purchasers should require for
the true article by its whole name—*The
Vegetable Pulmonary Balm*, and see that it
has the marks and signatures of the genuine.
Each bottle and seal is stamped "Vegeta-
ble Pulmonary Balm."

ONE MORE COUNTERFEIT, besides the
"American Pulmonary Balm," and others
above alluded to!—An attempt has been made
to deceive the public by a spurious mixture
called "Vegetable Pulmonary Balm," some-
times signed Samuel Lee—said to be prepared
by an unprincipled man in Bangor, Me. The
name is written in a way to resemble the
genuine signature, and is a most foul attempt
to deceive the public, and avoid the punish-
ment that awaits actual forgery.

For sale by REED, WING & CUTLER,
(late Lowe & Reed) wholesale dealers in
Drugs, Medicines, Faints and Dye Stuffs, No.
54, Chatham Street, Boston, and by Druggists
and country merchants generally in New Eng-
land, and in the principal places throughout
the United States and British Provinces.—

THE MOST POPULAR SUMMER BEVERAGE, DR. Wm. BROWN'S SARSAPARILLA COMPOUND, or MEAD SYRUP.—It is the true and genu- ine article. Price 30 cents a bottle, with the Soda.

To its extensive use the last summer, is at-
tributed in part the uncommon prevalence of
health during the summer season. The strength
of the Sarsaparilla is extracted on an entire
new plan, by a steam apparatus, that prevents
all evaporation, which is very much approved,
when made a common beverage, it will purify
the blood, and remove all humors from the
system. At the rate that it has commenced
selling this season, I shall extract the strength
from 10 to 15 hundred pounds of Spanish Sarsa-
parilla. It differs entirely from the common
Mead Syrup, and has already gained a reputa-
tion as high as its merits are unquestionable.
Every body is sending for the article, and evet
every body is commending it in the most flut-
tering terms. Indeed it is literally in the
mouth of the whole community.

NOTICE.—As an evidence of the superior-
ity of William Brown's No. 1 Silver Top
Sarsaparilla Compound or Mead Syrup over all
other kinds, and to convince the public that it
does contain the virtues of Sarsaparilla, the
article that is celebrated for purifying the
blood, and removing all humors from the
system, and rendering the body healthy and
strong.

Certificate of P. B. Fessenden.
I hereby certify, that within the last two
months, I have prepared in my mill, for Wm.
Brown, Chemist, 451 Washington-st., Boston,
two thousand five hundred pounds of the best
Spanish Sarsaparilla, the greater part is already
used up in manufacturing his celebrated
Mead Syrup. I have further orders to prepare
more.

P. B. Fessenden, Cambridge, Mass.
No one doubts its superiority, after reading
the directions which enclose the bottle. Many
notices are omitted.

Dealers throughout the United States can be
supplied at the manufacturer's prices by all the
wholesale Grocers and Druggists in Boston.
Families supplied by the retail West
India Goods stores in Boston, Salem, Port-
smouth, Newburyport, Worcester, Portland,
Springfield—it will keep in all climates, and
is well calculated for the Southern market.

For Sale at the Manufacturer's prices by
R. J. TAYLOR, Druggist, Thames-street,
and Dr. R. R. HAZARD, at the sign of the
Golden Mortar, Washington-square.

A NEW BEVERAGE.—Wm. Brown, 451
Washington-street, Druggist and Chemist, sell-
ing Syrup, with an effervescent powder, which
makes a very agreeable beverage, particularly
for warm weather. The principal ingredient
in the beverage is iced water, a small quantity
only of the Syrup and powder being necessary
to give it sprigliness and an agreeable flavor.
It is strongly recommended not only as a palat-
able, but a healthy drink, and its cheapness
and convenience give it an additional recom-
mendation.—Boston Daily Advertiser.

SARSAPARILLA.—Wm. Brown has a
pure Sarsaparilla Syrup of great strength,
which used with the powders he sells with it,
forms a delightful foaming draught that may
be prepared in an instant. He has great suc-
cess in getting up such mixtures.—Boston Trans.

A PLEASANT DRINK.—One of the
most agreeable summer drinks is Brown's
Sarsaparilla Compound. The press at the
North are enthusiastic in its praise, as it is
a new and improved Champagne. It not
as refreshing it is certainly more wholesome,
and has as much brilliancy, it is devoid in its
sparkling effervescence. Let trial be made of
it during the remnant of the warm weather.—
Charleston Mercury.

A new article of drink is manufactured by
Wm. Brown, 451 Washington-street, called
"Sarsaparilla Compound," very pleasant and
wholesome for warm weather.—Christian
Watchman.

A SECOND DRINK.—We have had the
pleasure of drawing a cork from the second
bottle of Brown's Sarsaparilla Mead, and
a greater luxury on a hot day we know not of
it. It delights the palate, cools the stomach, and
leaves the head unharmed. Such a drink is
economical, pleasant and healthy, worth more
than fifteen gallons of the "critter," or a cart-
load of quack medicines.—Gospel Witness,
Hingham.

Brown's Sarsaparilla Compound forms one
of the most delicious summer beverages we
have ever tasted. A Syrup of delightful flavor
iced water, and a little soda to create an effervescence, form the ingredients of this refresh-
ing drink. The Syrup is sold in pint or quart
bottles, accompanied by little boxes, contain-
ing the suitable proportions of carbonate of
soda, and the preparation is perfectly simple
and convenient.—New York Times.
BROWN'S SARSAPARILLA COMPOUND
—This new preparation for the alleviation of
thirst makes truly a most delicious drink.—
We speak that we do know, having poured its
sweet globules down our throat most to-day
during the late parching days. It is cheap, too.
Moreover it is healthy, containing the virtue
of the excellent plant from which the com-
pound is made.—SARSAPARILLA COMPOUND.—This is
lightful and pleasant beverage for the Summer
is fast coming in use, and will soon be an in-
dispensable article in every family. It makes
a delightful drink, and is an excellent purifier
of the blood. By a very small expenditure of
money, the purchaser can have a bottle of the
Sarsaparilla Compound, and a box containing the
Saline powder; the only necessary accompani-
ment is a pitcher of iced water, and you have
perfect fountain, where, reader, you may re-
frigerate to your heart's content. A little of
the saline mixed with the prepared Sarsaparilla
will give you as grateful a glass of Sarsaparilla
Mead as can be found in the city. We speak
from experience; don't take our word, but go
and get the article of Wm. Brown, the inven-
tor, 451 Washington-street. It may be found
at the store where you purchase your groceries,
or at any of the druggists. Call for Wm.
Brown's No. 1 Silver Top.—Boston Herald.
None is genuine except signed by the pro-
prietor, Wm. Brown
Newport, July 13, 1840.

COMMISSIONER'S NOTICE

BECK WITH'S ANTI-DYSPEPTIC PILLS

THE ANTI-DYSPEPTIC PILLS have become
successfully employed in almost every
variety of functional disorder of the Stomach
Bowels, Liver and Spleen; such as heartburn,
acid eructations, nausea, headache, pain and
distention of the Stomach and Bowels, inap-
petent Diarrhoea, colic, Jaundice, Flatulency,
habitual costiveness, loss of appetite, sick head-
ache, sea-sickness, &c. &c. They are a safe
and comfortable Aperient for females during
pregnancy and subsequent confinement, re-
lieving sickness at the stomach, headache,
heartburn, and many of the incidental nervo-
us affections. Literary men, students, and
other persons of sedentary habits, find them
very convenient. Those who indulge too freely
in the pleasures of the Table, find speedy re-
lief from the sense of oppression and disten-
sion which follow, by taking the Pills. *Au-
dinner Pill* they are invaluable. Those who
are drinking mineral waters, and particularly
those from southern climates, and agree and
ever districts, will find them a valuable ad-
juvant. Those who are exposed to the vicissi-
tudes of weather on voyages or journeys, can
take them at all times with perfect safety. In
all cases they are a highly efficacious and safe
Antibilious medicine. They seldom or never
produce sickness at the stomach or griping.

TESTIMONIALS.
From the mass of evidence published in
favor of these pills, a few certificates are
selected (as many as the limits of an advertise-
ment will conveniently admit of) to show the
character of the Pills as well as of the Pro-
prietor, which last is deemed of some impor-
tance to establish confidence, at a time when
the public are imposed on by so many igno-
rant and unprincipled empirics.
Dupont County, N. C. March 7, 1834.
To Dr. John Beckwith.

Dear Sir—I have with your permission
sent your Anti-dyspeptic Pills in my Practice
for ten years, and have thoroughly tested them
in my own person; for you know I was much
of a dyspeptic, and you will add, something of
thymocholeric, and have found them to be an
invaluable remedy. My sick headache is un-
formly relieved by them. I feel the public
should be made acquainted with their value
and receive the benefits of a medicine cal-
culated to do so much good, and to save them
from the too common and unadvised use of
mercurial preparations. Truly yours,
ELIJAH CROSBY, M. D.

The following Testimonial of the claims
of these Pills to public patronage, has been
selected from many of similar import, recently
only furnished.
From the Rev. Levi S. Lee D. D., Bishop
of North Carolina.
Raleigh, March 2, 1835.

Having for the last three years, been in-
timately acquainted with Dr. John Beckwith, of
this city, and enjoyed his professional services,
I take pleasure in stating that his character as a
Christian gentleman, and experienced Physi-
cian, entitles his testimony, in regard to the
use of his Anti-dyspeptic Pills, to the entire
confidence of that public. My experience of
the good effects of these Pills, for two year
past, satisfy some other eminent value, par-
ticularly in aiding impaired digestion, an
warding off bilious attacks. Having been for
a long time subject to the annual recurrence
of such attacks, I was in the habit of resorting
for security against them, and with every par-
tial success, to a liberal use of Calomel or
Blue Pill. But since my acquaintance with
the Anti-dyspeptic Pill of Dr. Beckwith, I have
prescribed in the first instance himself. I have
in any form, besides being wholly exempt
from bilious attacks. Several members of my
family are experiencing the same beneficial
effects.

FRENCH, MUSIC & DRAWING

MRS. BEIMER, (an English Lady)
respectfully informs the Ladies of New-
port, and the Public in general, that she has
opened Classes for FRENCH, MUSIC, and
DRAWING.—Mrs. B.'s system of teaching
the French Language is now the most ap-
proved in Europe; her long residence in
France has afforded her the opportunity of ac-
quiring the true pronunciation, and to speak
it with its proper accent.
Mrs. BEIMER will also take a select num-
ber of Young Ladies, who may be inclined to
finish their English Education on the most re-
cent and approved system.—Terms, Letters of
reference and respectability, may be seen at
Messrs. Wm. B. & Co., opposite Trinity Church, Spring-street.

REYNOLDS & PARMELY'S Celebrated Female Health Re- storative.

IS now admitted to be the only reme-
dy upon which implicit confidence can be
placed, for the diseases peculiar to the fe-
male constitution. It invariably removes
obstructions, regulates in most cases of
painful, too frequent or profuse menstrua-
tion, and has cured the most obstinate cases
of diarrhoea. Dr. J. Morrison, who has
practiced medicine some 20 years at Oneida
N. Y. says, in relation to it,—"that it
is the best medicine now in use. In case
of retention, or suppression of the menses
I think it will sustain the appellation for
specific. I have tried it in the worst cases
with admirable success. I wish for the
good of suffering females, that every Physi-
cian would introduce it in their practice
as I have found the pills to answer fully
their recommendation." It is not a cathartic
nor recommended to cure all diseases
its effects are tonic, and aperient. For
particulars, and the opinion of many more
eminent Physicians respecting it, you are
referred to pamphlets left with the Agents
for gratuitous distribution. Price 25
cents per box, containing nearly 100 pills.

MOFFAT'S LIFE PILLS, And PHENIX BITTERS.

MOFFAT'S VEGETABLE LIFE
MEDICINES.—These Medicines
are indebted for their name to their man-
ifest and sensible action in purifying the
springs and channels of life, and enduing
them with renewed tone and vigor. In
many hundred certified cases which have
been made public, and in almost every spe-
cies of disease to which the human frame
is liable, the happy effects of MOFFAT'S
LIFE PILLS AND PHENIX BITTERS
have been gratefully and publicly acknow-
ledged by the persons benefited, and who
were previously unacquainted with the
beautiful philosophical principles upon
which they are compounded, and upon
which they consequently act.

The LIFE MEDICINES recommend
themselves in diseases of every form and
description. Their first operation is to
loosen from the coats of the stomach and
bowels, the various impurities and crudi-
ties constantly settling around them, and
to remove the hardened forces which collect
in the convolutions of the small intestine.
Other medicines only partially cleanse
these and leave such collected masses be-
hind as to produce habitual costiveness, with
all its train of evils, or sudden diarrhoea,
with its imminent dangers. This fact is
well known to all regular anatomists, who
examine the human bowels after death, and
hence the prejudices of those well-inform-
ed men against quack medicines, or medi-
cines prepared and heralded to the public
by ignorant persons. The second effect
of the Life Medicines is to cleanse the kidney
and the bladder, and by this means the liver
and lungs, the healthful action of which
entirely depends upon the regularity of the
ordinary organs. The blood which takes
its red color from the agency of the liver
and the lungs before it passes into the
heart, being thus purified by them through
the veins, renews every part of the system,
and triumphantly mounts the banner of
health in the blooming cheek.

Moffat's Life Medicines, have been the
roughly tested and pronounced a sovereign
remedy for Dyspepsia, Flatulency, Palpitation
of the heart, Loss of appetite, Heart-
burn and Head-ache, Restlessness, inter-
mittent Fever, Anxiety, Langour and Melancholy
Costiveness, Diarrhoea, Cholera, Fevers,
all kinds, Rheumatism, Gout, Dropsies of
all kinds, Scurvy, scorbutic eruptions, and
abad Complexions, eruptive Complaints, sal-
low, cloudy and other disagreeable com-
plexions, salt rheum, erysipelas, common
colds and influenza, and various other com-
plaints which afflict the human frame. In
Fever and Ague, particularly the Life
Medicines have been most eminently suc-
cessful, so much so that in the Fever and
Ague districts, Physicians almost univer-
sally prescribe them.
All that Mr. Moffat requires of his pa-
tients, is to be particular in taking the Life
Medicine strictly according to the direc-
tions. It is not by a newspaper notice, or
by any thing that he himself may say in
their favor, that he hopes to gain credit. It
is alone by the result of a fair trial.

MOFFAT'S MEDICAL MANUAL.
designed as a domestic guide to health.—
This little pamphlet edited by W. B. Moffat
375, Broadway, New-York, has been pub-
lished for the purpose of explaining more
fully Mr. Moffat's theory of diseases, and
will be found highly interesting to persons
seeking health. It treats upon prevailing
disease, and the causes thereof. Price 25
cents—for sale by Mr. Moffat's agents gen-
eral.

DR JAYNE'S EX- PECTORANT.

WE consider it a duty to call
attention to this valuable
Coughs, Colds, Consumption,
Blood, Asthma, Bronchitis, &c. It is used and
approved by persons of the first
ability, but we feel confident in its
trial of its efficacy will be its
recommendation.

DR JONATHAN GOING, Pres.

the Granville College, Ohio, (late of
New York, in a letter to Dr. Jayne, dated
York, December, 1836, says, "I
laboring under a severe cold, cough,
consumption, and that the difficulty of
breathing was so great that he felt the
imminent danger of immediate death.
It was perfectly cured by using the
Expectorant."—Mrs. Deike, Salem,
was cured of Asthma of twenty years
standing, by using two bottles of this
Expectorant.—Mrs. Ward, also of Salem,
was cured of a severe cold, cough,
consumption, and that the difficulty of
breathing was so great that he felt the
imminent danger of immediate death.
It was perfectly cured by using the
Expectorant."—Dr. Hamilton, of St.
South Carolina was greatly affected
cough, hoarseness and soreness of the
throat, and on using a bottle of this medicine
obtained relief.

Mr. Nicholas, Sen one of the De-
ties of the First Baptist Church in this
city, has been perfectly cured by it—after
suffering sixty years with Cough, and
Spitting of Blood, which no other
remedy could relieve.

The Rev. C. C. Crosby, late Editor
American Baptist, writes as follows
New York, June 15, 1838.

The Rev. JOSEPH RUSLING,
known in this City as a pious and
Clergyman of the Methodist Epis-
copal Church, in letters to the proprietor
he has had repeated spells of spitting
and violent hemorrhage from the
throat, and in consequence of this
suffered sixteen years, and had suffered
cough, hoarseness and soreness of the
throat, and on using a bottle of this medicine
obtained relief.
He was not able to get any sleep at
night, or two o'clock in the morning, on
his cough which harassed him until
about ten o'clock, when he usually
came more easy but still suffered in
or less cough throughout the day.
Best medical advice this city could
had at all times been at his command,
every expedient his numerous friends
devised for the mitigation of his suffer-
ings had been tried in vain. The best
prescriptions failed of even giving him
temporary relief. A friend now urged
to try Jayne's Expectorant, and present-
ing with
